

Vocabulary Taboo Cards

Directions: Print and cut apart the vocabulary words below. Fold up each square and put them in a bowl or hat. Put students in small groups and have them send one person up to the front from each group. The teacher picks out one word and the player from each team tries to describe the word to their teammates without using any of the describing words that are also found on the card. These describing words are called “Taboo words” because they cannot be said. If a player uses one of the descriptive Taboo words on the card, they will lose their turn and be unable to win the card for that round. Any team that correctly guesses the word without the person describing the word using any of the “Taboo words”, wins that round and a new card is picked to begin the next round/word. Depending on the size of your group, you may choose to play in small groups or in a whole group.
